

the first Latinas to cross over into Anglo American mainstream media and appeared in television shows, radio broadcasts and major studio movies, Rosita performed for Pope John Paul II, Prince Charles and five U.S. Presidents including President Carter for his inauguration.

She introduced Mexican culture to a wider audience and was an ambassador for Latino cultures. First Lady Lady Bird Johnson named her "San Antonio's First Lady of Song," yet in San Antonio, she grew her as "Rosita" and were very proud that she represented our community.

She began singing at the age of 9 shortly after her family made their way from Monterrey, Mexico, to San Antonio. Rosita adapted to each new mode of entertainment. In the 1920's, she performed throughout south Texas with her uncles in the "Trio San Miguel." As radio grew more popular, Rosita began broadcasting on a W.O.A.I. program, As W.O.A.I. moved into television, so did Rosita as she appeared in the station's first broadcast. Thereafter, Rosita performed in a weekly series. Yet, she made recording the foundation of her career and cut hundreds of records over the duration of her career. Her recordings will perpetuate her brilliance and be a lasting contribution to American culture.

Rosita was a pioneer in popularizing a number of styles including canciones romanticas and the bolero, a hybrid style that fused African and Hispanic styles. At a time when the ranchera style was ascendent, Rosita breathed new life into canciones romanticas, which entailed complex orchestral arrangements.

Rosita achieved success on the silver screen. She appeared opposite John Wayne in "The Alamo," and played the lead in Disney's 1963 film, "Sancho, The Homing Steer," which was based on J. Frank Dobie's true story. But, at a time, when most Americans did not have first hand experience with Latinos, figures like Rosita or Desi Arnaz began to change perceptions and biases against our community. Rosita was the consummate cultural ambassador for San Antonio and Latinos throughout America.

Beginning in the 1950's, Rosita performed at the Arneson River Theater every year during the "Fiesta Noche del Rio." San Antonio could look forward to a summer full of their beloved Rosita performing at the beautiful amphitheater on the Riverwalk in La Villita. It was there during the 1968 Hemisfair that Rosita performed for 40 ambassadors. She became so inseparable from that place that San Antonio named an adjacent bridge for her and many said that this bridge symbolized the way Rosita brought Mexican and American cultures together.

She began a much deserved retirement in 1982 that concluded her performing career but began her philanthropic career. Rosita sang for numerous causes and charities and appeared at a wide range of locales to do so. Among the causes she supported were the Brooke Army Medical Center's Burn Unit, the March of Dimes, and churches. Yet, the cause she worked hardest to promote was that of education. After spending her life bridging cultures and educating America about Latinos, it is fitting that she chose to focus her talents on helping others cross the bridge from ignorance to knowledge.

San Antonio suffered a great loss and my thoughts and prayers go out to her husband and her family.

TRIBUTE TO PROJECT GRAD NEWARK

HON. DONALD M. PAYNE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 20, 2006

Mr. PAYNE. Mr. Speaker, I ask my colleagues here in the House of Representatives to join me as I rise to acknowledge Project GRAD Newark as it hosts its sixth annual scholars celebration on Monday, June 19, 2006. Project GRAD has every right to be proud of its accomplishments and a celebration is indeed in order.

Project GRAD Newark was established in 1998 to provide support and an educationally enriched opportunity for Malcolm X Shabazz High School and eight schools that feed students to it. The objectives of Project GRAD Newark are to raise the level of academic performance in mathematics and literacy; to have students believe in their ability to achieve; to have all students aspire to graduate from high school and pursue a college education and to have students strive to receive the \$6,000 Project GRAD scholarship. Fortunately for the students of Newark, Project GRAD Newark expanded to include Central High School and its six feeder schools in 2000.

In both instances, the leadership of the Newark Public Schools assessed key indicators of progress and determined these two feeder groups were lowest in the district. These schools needed the GRAD reform initiative to support them with research-based programs, services and resources.

Project GRAD Newark is the first expansion site for the model that was developed in Houston, TX, in 1993. With initial support from Lucent Technologies Foundation and the Ford Foundation, the Newark Public Schools entered into partnership and launched Project GRAD Newark.

Today, 16 schools serving over 8,500 students, 485 teachers and 50 administrators constitute the Project GRAD Newark family. All can share in the joy of the improvements in each of the schools. On-time graduation rates at Central High School have doubled since it became a GRAD school. At Malcolm X Shabazz, the on-time graduation rate has improved by 20 percent compared to the years before it became a GRAD high school.

This year 109 students, 60 from Malcolm X Shabazz and 49 from Central, will graduate with the \$6,000 Project GRAD Newark Scholarship as they go off to college this fall. At a time when the City of Newark is struggling to reduce crime in the streets and help young people have hope and focus for a bright future, these students are taking full advantage of the opportunities Project GRAD Newark provides. Mr. Speaker, I know my colleagues join me in congratulating these students on their achievements and all those associated with the Project GRAD Newark program in helping to facilitate this significant program.

CONGRATULATING IMMANUEL ST. JOSEPH'S MAYO HEALTH SYSTEM HOSPITAL

HON. GIL GUTKNECHT

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 20, 2006

Mr. GUTKNECHT. Mr. Speaker, I rise today to congratulate St. Joseph's Mayo Health System Hospital of Mankato, Minnesota, on receiving the National Committee for Employer Support of the Guard and Reserve's Above and Beyond award.

The National Committee for Employer Support of the Guard and Reserve, ESGR, was established in 1972 to promote cooperation and understanding between Reserve component members and their civilian employers. Their mission is to continuously gain and maintain active support from all public and private employers for the men and women of the National Guard and Reserve. Local and national representatives stand ready to help employers understand Federal laws that affect the call-up of their employees. The Above and Beyond Award recognizes those who have gone beyond what Federal law requires for supporting activated Guard employees.

Minnesota businesses that employ Guard members are an essential link in family support for deployed service members. The State of Minnesota is recognized as a leader among those employing Guard and Reserve members and received the 2004 Secretary of Defense Employer Support Freedom Award.

Immanuel St. Joseph's Mayo Health System Hospital, ISJ-MHS Hospital, one of 475 companies nominated for the Above and Beyond Award, was nominated by Chief Master Sgt. Dennis of Mankato, Minnesota.

I extend my sincere congratulations to Immanuel St. Joseph's Mayo Health System Hospital for receiving the Above and Beyond Award from the National Committee for Employer Support of Guard and Reserve and commend them for the extraordinary services provided to those who serve our country.

KAREN HOSPITAL

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 20, 2006

Mr. TOWNS. Mr. Speaker, a few months ago, there was an historic moment that was, sadly, underreported by the news media in this county and in much of the rest of the world. It is only recently that I came to learn of it and I wish to bring it to the attention of this House.

On March 31, outside of Nairobi, Kenya, there was a dedication ceremony for the Karen Hospital, which is the first full-service hospital opened in Kenya since the colonial era, before that country became an independent state within the community of nations.

Karen Hospital is located in the Nairobi suburb of Karen, which many will recognize as the setting for the movie, "Out of Africa," which told the story of author Isak Dinesen, who used the pen name Karen Blixen, and who lived and worked in Kenya and wrote about that country and her love for it.

The opening of Karen Hospital has important implications for health care in Kenya and throughout East Africa. This state-of-the-art facility will provide opportunities for teaching health-care professionals—not just doctors, but nurses, administrators, orderlies, and others—who will bring their knowledge and skills into cities and villages across the region.

When Karen Hospital was opened formally, its chief executive officer, Dr. Betty Gikonyo—who received her medical education in the United States—made a speech, in the presence of President Mwai Kibaki, that reflected the pride and hard work of bringing this hospital from a mere conception to a full-fledged operating unit serving the people of Kenya.

Mr. Speaker, if there is no objection, I would like to place excerpts of the address by Dr. Gikonyo in the CONGRESSIONAL RECORD. Such a historic occasion deserves to be paid much more attention than it has so far received.

EXCERPTS FROM A SPEECH BY DR. BETTY GIKONYO, CHIEF EXECUTIVE OFFICER, THE KAREN HOSPITAL, FRIDAY, MARCH 31, 2006

We have gathered here to celebrate a special day, which will form a milestone in the history of The Karen Hospital. 21 years ago a dream was born, nurtured over the years and now realized. Over the last 10 years we have gone through a process of feasibility studies, consultation, intense planning resulting in a business plan for the Karen Hospital. The search for a financier was not an easy one and it took us over 5 years to convince financial institutions that a medical business is a viable option. We kept on knocking at their doors. Nevertheless some doors were open. We received some offers from both regional and local banks. In consultation with our financial advisers opted for a loan in Kenya Shillings that could finance the two major components of the project which are including building and acquisition of medical equipment. Your Excellency Sir, please, allow us to thank the Kenya Commercial Bank, for believing in our vision and trusting the business plan of a local investor. Kenya Commercial Bank took the risk and proudly partnered with us in undertaking a project of this magnitude. To the KCB Board of Directors and Management Asanteni Sana. You have worked closely with in the formation of this project to see it conclude successfully.

Medical equipment are an expensive undertaking and we wish to recognize Philips Medical Systems Netherlands and Fresenius Renal Supplies of Germany who entered into equipment financing credit plans to enable us to equip the hospital with ultra modern state of the art equipment in all departments as Your Excellency has had an opportunity to see.

This has been achieved through hardwork, commitment and consistency of purpose by a team of financial consultants, medical consultants, hospital engineers and building and civil engineers and a dedicated contractor and sub-contractors. By following the clearly laid out rules we were able to import clear all equipment in good time for installation.

The hospital building comprises of 4 floors each with four wings thoughtfully planned to ensure all services are accessed with minimum effort and maximum convenience to our patients and staff. . . .

The Karen Hospital is a world class ultra modern health facility bringing quality healthcare not only to Kenyans but also to Eastern and Central Africa but beyond.

The 102 bed hospital serves patients with general ailments alongside specialized medical and surgical interventions. It has the newest ultra modern state-of-the art equipment, cardiac diagnosis, interventions and

surgery, intensive care, kidney dialysis, Laparoscopic surgery, video Endoscopy and physiotherapy. . . .

[A] Hospital is however not made of building and equipment. Our most important resource is the highly trained and experienced personnel in all departments. Through competitive selection of the best qualified personnel Karen Hospital has been manned by the best Kenya can offer in all our departments both medical and non-medical. This includes our permanent staff as well highly experienced team of medical consultants who form the large panel of over 100 admitting doctors of different areas of specialization.

Your Excellency Sir, I am happy to inform you that we have been able to attend to 634 patients in our Accident and Emergency department. Some with major injuries including bullet assault cases and road traffic accidents. Additionally we have performed a number of surgeries, endoscopies and cardiac catheterizations and as you have seen a full wing of inpatients with varying ailments ranging from major surgeries to medical conditions are recuperating in our Sagana Ward. This confirms that Kenyans have already come to know, trust and use this facility in the last one month. We look forward to a full house in 6 months time. The performance so far has been very impressive and we are encouraged and grateful for the support Kenyans have given this facility at its inception. . . .

The City of Nairobi has been the hub of specialized medical services for the entire country as well as for the Eastern and Central Africa region. Indeed this has been realized in the month of March, as we have admitted referred patients from Tanzania (Daresalam), DRC Congo, Sudan (Khartoum), and Burundi (Bujumbura).

Referrals from the region not only is testimony to the high standard medical services available in Kenya but also affords us an opportunity to boost our inflow of foreign currency to enhance our economic growth. This is an area that can be expanded further by the establishment of highly specialized medical services in the private sector that would see greater number of referral from this population of over 100 million that forms the Eastern Africa community. We at The Karen Hospital has addressed this very specifically by incorporating in our hospital a cardiology program that spans from diagnosis to interventional non-invasive procedures and to heart surgery. We believe that more patients will be diverted from the exodus that sees patient travel to India, South Africa and Europe to seek some of these specialized services. As a new centre of medical excellence, we plan to market our services effervescently to the region and make Kenya a preferred destination for medical services. . . .

This will provide a forum for many to channel their energies, experiences, resources and to harness these positively towards our mission statement. I believe that many of us are cognizant of the benefits that come along with the integrated teaching and referral facility globally.

We at The Karen Hospital wish to compliment and be active participants in the implementation of the government policy of providing promotive, preventive and curative services. We believe there is room for the private sector to provide specialist tertiary medical institutions to compliment those existing in the government and indeed these are not in competition but rather in partnership. More facilities like Karen Hospital are needed in our countries especially in cities Like Mombasa Kisumu and Eldoret and also in the East African cities.

On behalf of the Board of Directors, Management, Staff of The Karen Hospital, may

once again, thank you for joining us during this auspicious occasion.

In closing, allow me to quote Our Mentor and Teacher Dr. Sam Mwinzi, a renowned neurologist who is with us today and had this immortalized in our visitors book when he visited Karen Hospital, "May the portals of this magnificent edifice forever remain open and overflowing with those that seek better health as well as those that have the gift of giving it".

PAYING TRIBUTE TO BRYTANI CAIPA

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 20, 2006

Mr. PORTER. Mr. Speaker, I rise today to honor Brytani Caipa for her efforts to protect teens on Internet.

Brytani joined a national effort to protect teens from internet predators by putting together a public service announcement. Brytani's public service announcement focused on protecting our First Amendment rights, while at the same time protecting our children. Her hard work paid off, as her public service announcement placed second nationally in a contest run through the Take Charge Program, and it is currently airing on numerous radio stations.

Mr. Speaker, I am proud to honor Brytani Caipa for her efforts to educate teens on Internet safety and protect them from Internet predators. I wish her the best of luck in her future endeavors.

TRANSPORTATION, TREASURY, HOUSING AND URBAN DEVELOPMENT, THE JUDICIARY, THE DISTRICT OF COLUMBIA AND INDEPENDENT AGENCIES APPROPRIATIONS ACT, 2007

SPEECH OF

HON. JOHN E. SWEENEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 14, 2006

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 5576) making appropriations for the Departments of Transportation, Treasury, and Housing and Urban Development, the Judiciary, District of Columbia, and independent agencies for the fiscal year ending September 30, 2007, and for other purposes:

Mr. SWEENEY. Mr. Chairman, I rise today to express my disappointment over the exclusion of section 206 as well as this amendment from the FY07 TTHUD bill.

Rep. Tiahrt's amendment—of which neither provision has any negative impact on or shuts down any current IRS program or service—would prevent the IRS from using taxpayer dollars to develop programs such as return-free tax filing systems, interactive tax filing systems and web portals.

These systems would overextend the IRS, expanding it beyond and diluting its core mission of tax collection and regulation. The costs
